### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

***Abstract:***

Line 3: changed "comprises" to -- including--.

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach or suggest a method, computer-readable storage medium or controller able to perform the function of dividing a printing area into several areas and measuring the amount of ink and elapsed time for each divided printing area, every time the printing head ejects ink to each divided area, an amount of ink ejected to the divided area is calculated, and a new accumulated value is obtained by adding the calculated amount of ink to a value obtained by multiplying a predetermined coefficient to an accumulated value previously obtained, and the waiting time is set based on a final accumulated value that is obtained at an end of printing on the front side of said medium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura E. Martin whose telephone number is (571) 272-2160. The examiner can normally be reached on Monday - Friday, 7:00 - 3:30.
